it's awesome it's only in russian ios app store right now so if you change your region to russia you can download it us release very soon it's in closed beta for android now check out their fb page i like it better than wwr ever was it's a little different but great i'd call wwr an arcade game and bt is more of a simulation but it requires way more skill and strategy than wwr good luck

power of currency walking war robots actually features three types of in game currency gold silver and workshop points the first two are earned in battle although gold requires a player to have been in the winning team's top 3 to have captured the most beacons in the winning team and to have won a battle with a friend gold and workshop points can also be earned by completing objectives only one robot or weapon can be upgraded at a time with the time and amount of silver required for an upgrade increasing for every level this process can be speeded up though by spending gold
